effective advertising

In all cases, increasing the use of colour, volume, frequency and extending campaign duration has a positive impact upon effectiveness*:

- **Using colour where available more than doubles the growth in awareness of local press ads**
- **Campaign awareness increases faster with greater weekly volume**
- **Longer campaigns generate higher awareness levels. Campaigns of 11 weeks or greater increase awareness by a ratio of 1.3**

The most successful ads employ structures which exploit the local press reader relationship and share a number of elements in common, including:

- **Necessary purchase, directional and product information**
- **Clear headlines and propositions**
- **Colour**
- **Product images**
